

I am writing to keep K-love on the air, the music they play has comforted me in my time of need, and has ministered to my spirit.

If K-love would be replaced by another trash-spouting radio station, it would be a great dis-service to those who need to hear the Word of God. God may speak to people through the ministry of this station, and lead them to salvation.

K-love serves the public by broadcasting encouragement to those who need it, and providing an outlet for praise for those who have been touched by the Lord. Their web-site allows people all over the world to hear God's message, including our troops over-seas.

We have plenty of secular stations in Texas, but only one K-love. Please support K-love and keep it going strong!

Thank you!

Laurie
